

Phil's

Cage free since 1959

Introducing

our liquid egg white.

Simply better fed. Simply better taste.

Phil Wubbena was an egg man ahead of his time. In 1959, he pioneered an idea that many considered a bit daft: that cage-free, better-fed hens are happier and healthier and produce better tasting eggs.

Today, we know our chicken whisperer was right on. That's why we continue his legacy with our new liquid egg whites. We feed our cage-free hens locally grown grains that we roast and blend with other all-natural ingredients like kelp, wheat and alfalfa. The hens love it. And the resulting liquid egg whites taste better than any other egg whites around, in our humble opinion. We think you'll agree.

There's a lot to love about our new liquid egg whites. Here are just a few of the reasons we're so proud of them. And why they'll soon become a favorite of your customers.

- USDA Certified Organic by EcoCert
- Certified Humane Cage Free
- Omega-3 enriched
- Kosher Certified
- 100% Pure
- Pasteurized
- Laid in real nests
- Can be frozen
- Extended Shelf Life – 90 Days!
